Uniting the Furnishings and Design Industries in the Battle Against Breast Cancer

Being diagnosed with breast cancer does not mean life stops. Normal obligations—responsibilities for home, family, and work—still continue. Add to that the challenges of doctor visits, medical tests, surgeries, and treatments. While most breast cancer charities focus on research, The Common Thread for the Cure Foundation focuses on patient well-being. We support individuals in our industry who are fighting breast cancer by offering helpful financial assistance. We know it's a frightening, overwhelming time, and we belong to an industry that cares.
